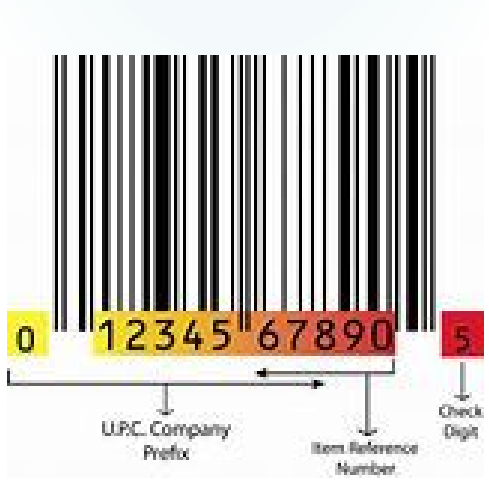
EVERGREEN CHILD CARE FOOD PROGRAM

Read this page before you proceed to the approved processed meats list

Look at the product's UPC#. Do not purchase products simply because they look like the images we provided, or because they are made from manufactures listed on this material.

What is a UPC #? The universal product code (UPC) is a 12-digit number and associated machine-readable **bar code** used to identify products being purchased in grocery stores. UPCs encode an individual product.



Please make sure to purchase the products with the UPC #'s that are provided in the following pages. If the processed meat product does not contain the UPC number that is provided, meals containing the unapproved product(s) will not be eligible for reimbursement.
